

DOING THINGS with STORIES

IS IT ENOUGH to think of WHAT STORIES WE tell?
WHAT HAPPENS once a story is Told?
How do stories SPREAD?
How do stories not just REFLECT
the World but CHANGE it?

Doing Things with Stories is a global project that thinks about stories through the framework of 'Narrative Change'. Drawing on the knowledge and experience of Narrative change makers from around the world, we invite young change makers to think, make, act, and create new ways of thinking about stories that lead to collective action.

If you are invested in questions of building possible futures, caring societies, and connected worlds, through hope, joy, and collectivity, come and join us for a **2 day workshop** that connects you with our global residents and initiates a conversation about the world of stories and the world that stories create.

24 & 25 JUNE 2022

Location: Will follow soon
(Nijmegen or Arnhem)

You are welcome to
sign up before 14 June
via [this link](#)

(The seats are limited, first come first serve)

Find us, join us, and
come and engage with us:

[Logistical Note]

→ Expenses (travel costs within NL) for participation, hospitality (food and drinks), and material costs for the participation intensive are taken care of by us.
